**Portfolio: https://martinrenteria.github.io/Martin-s-React-Portfolio/**

## Summary

I am a full Stack Web Developer with a background in psychology and a life-long dedication to learning. Excellent in collaborating with teams across multiple functions to develop user friendly applications. I have a strong work ethic and ability to set goals and meet deadlines. My strengths are in communication, problem-solving, and attention to detail among other skills.

## Skills

- HTML/CSS/ and JavaScript
- Node.js/Express
- React framework
- MongoDB with Mongoose
- MySQL with Sequelize
- Data Structures and Algorithms
- Object Oriented Programming
- Knowledge of various front-end CSS library's (Bootstrap, React-Bootstrap, Bulma)

## Projects

**Google Book Search API – Full-Stack MERN Application**

**Github Repository: https://github.com/MartinRenteria/Google-Book-Search-With-React**

**Deployed project link: https://google-books-react-api.herokuapp.com/**

**Description:** A MERN project made with the Google Books API with a search and save functionality. This project used the React framework, MVC architecture, and knowledge of the React lifecycle methods to query and display books based on user searches. Built with Node.js, Express server, and MongoDB database.

**Let's Workout – Workout tracker**

**Github Repository: https://github.com/MartinRenteria/Let-s-Workout**

**Deployed project link: https://exercise-workout-tracker.herokuapp.com/**

**Description y:** A Workout Tracker app that allows users to track their workout progress wherever they are. Either in the gym, outdoors, or at home, the app assist users in maximizing their fitness results. Built using MongoDB database with the Mongoose extension.

**Progressive Budget App – Full-Stack application**

**Github Repository: https://github.com/MartinRenteria/Progressive-Budget-**

**Deployed project link: https://offline-finance-tracker.herokuapp.com/**

**Description:** A budget tracker app that allows users to track their transactions to establish a more organized budget with an offline functionality. Demonstrates understanding of MongoDB, IndexDB, manifest, and service workers for offline functionality.

- *Bachelor of Arts in Psychology – GPA 3:71 – March 2018*

## Work Experience

**Friends of Youth,** Kirkland, WA
*Bilingual Residential Youth Counselor*                                                          *08/2019 to present*

- Establishing measurable and attainable goals with clients to assist them in developing communication and independent living skills within specified deadlines during their time within the program.

- Serving as senior residential counselor leading team discussions, developing and implementing various program projects that boos Youth engagement and participation in developing their professional portfolios.

- Writing and maintaining client-related paperwork, including federal- and state-mandated forms, client diagnostic records, incident reports and progress notes for all Youth in WA state that have entered the program.

**MeBe,** Bellevue, WA
*Registered Behavior Technician*                                                          *03/2018- 03/2019*

- Worked directly with clients ages 2-18 in the field, in their home and community to achieve greater independence through collecting data on observed behavior, collecting behavioral data assigned by a BCBA supervisor and communicated results to employer and client guardians daily.

- Provided 1:1 ABA therapy to individuals diagnosed with behavior disorders, mental health disorders, intellectual disabilities and autism spectrum disorders in the home, community, and school systems.
